

WILDWOOD HOA

NEIGHBORHOOD MEMO

TOGETHERNESS

Wildwood HOA is determined to create a clean, healthy, environment for all our residents. Our HOA has a great landscape company, "The Perfect Lawn Service" that works extremely hard to keep this HOA clean and beautiful.

We ensure that if you do your part in keeping this community clean we will do the same. The common areas are the Associations responsibility.

The cost of picking up trash and repairing sprinklers is rising unnecessarily. The owners of the units with excessive trash and sprinkler damage will be charged and no doubt, pass the charge onto you, the tenant.

The tossing of balls in the common areas is forbidden because of the risk of breaking windows.

The destruction of flowers and plant life will not be tolerated.

All residents, to include minor aged residents, should not play in the common areas of the Association. There is a community park "Phoenix Green" located on Phoenix Park Drive, where all tenants can enjoy outside activities.
