TO: Owners and Residents

RE: Installation Comcast, Direct TV and Dish Network

FR: Wildwood and Morrison Creek HOA

The installation of satellite dishes must be via tripods on the balcony, not attached to the railing. Do not set up inside, on the side of, or the front of the flower beds.

**Do not drill through the exterior siding of the buildings to get to the 2<sup>nd</sup> floor, if service is wanted on the second floor please contact your owner to assign a licensed contractor to run wires on the INSIDE of the unit to the second floor.**

Damage to the siding resulting from poor installation will become the responsibility of the homeowner.

Respectfully,

Wildwood Homeowners Association

Morrison Creek Homeowners Association

Lisa Lindsay
